

SPEEDWAY CDC AND WORLD CHANGERS OFFER HOME REPAIR ASSISTANCE

May 9, 2016

The Speedway Community Development Corporation is pleased to announce that it will again partner with World Changers to help homeowners in the Town of Speedway who may need assistance with home repair and rehabilitation.

This program is for families who may need routine repairs to their owner-occupied home. Some of the requests might include painting, yard and garage clean up. The volunteers can assist in landscaping and minor roofing projects as well.

The only cost to the homeowner is the cost of materials. All labor is being donated by World Changers. This group will be in town doing work during the weeks of June 11th and June 20th

Anyone interested in having work done may call Mark Stokes, the project manager working with the CDC at 317-374-0185. Please provide your name, phone number, address and repairs needed.

All requests will be reviewed by the project manager, and if approved a time will be scheduled for the work to be completed.

Deadline is June 1st, 2016
